Real Security

An affordable security solution

Total security at affordable prices

- Constructed from 16mm steel verticals with solid steel flight inter-lockers.
- Comes in a modular form for easy on-site installations.
- Ideal for all windows up to 2010mm high.
- Available in white and TC bronze.
- All steel components are hot dip galvanised for coastal areas and electro-galvanised for inland areas.
- Unlike the X-Door, this is a non-sliding security barrier.
- Tested for the SA market and meets the stringent SABS and ISO 9001:2000 standards.
