## SERIES 600 ROLLER SHUTTERS

### FEATURES:

- Made from 0.6mm galvanised slat material
- Built-in counter balance mechanism
- Unique nylon end-locks - less noise, ease of operation, no grease required
- Economic security barrier that is tried & tested
- Powder-coated in a range of standard colours
- Not suitable for areas that experience strong winds

## STANDARD ROLLER SHUTTERS

### FEATURES:

- Heavier duty Roller Shutter Doors are widely used in the building industry
- Can withstand high wind pressures
- Unique nylon end-locks - less noise, ease of operation, no grease required
- Manufactured from 75mm x 0.8mm/1mm & 1.2mm galvanised slat material
- Can be manufactured to any width
- Available in a range of standard colours
- Three different locking mechanisms available

## FENESTRA ROLLER SHUTTERS

### FEATURES:

- Ideal for shop-fronts & showrooms, offering high security & aesthetic appeal
- Allows good visibility, thus allowing window shopping after hours
- Offers high ventilation
- Optional weatherproof Polycarbonate inserts with custom-made gaskets to prevent rain water from entering vents

## PERFORATED ROLLER SHUTTERS

### FEATURES:

- Ideal for shop-front security combining maximum security with good visibility, thus allowing window shopping after hours

## SUB-STATION DOORS

### FEATURES

- Superior strength and security vs wooden doors
- Custom-made to fit any opening
- Unique weatherproof design
- Easily installed
- Hot dip galvanised
- Approved locking system
- Made from 1.2mm slats

## ROLLER GRILLES

### FEATURES

- Available in two attractive designs - Circle and Romany
- Provides security without obstructing your view
- Extensively used by the commercial sector
- Only available in a hot dip galvanised finish
- Lock mechanism can be barrel bolt, linze lock type or Xpanda rol-lock
- Can be chain operated, crank operated or fully automated

## ALUMINIUM ROLLER SHUTTERS & SECTIONAL DOORS

### FEATURES

- Available in plain or Fenestra slats
- Fenestra slats can be provided with Polycarbonate inserts
- Lock mechanisms can be concealed by a rectangular aluminium bottom rail
- Doors can be anodised or epoxy coated
- Perfect application for extreme weather conditions

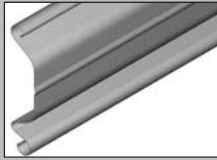

## P A N O R A M I C   D O O R S

### FEATURES

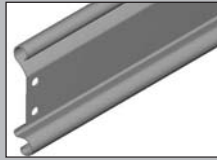

- Ideal for motor dealerships & showrooms
- Made from hardened aluminium
- Available with toughened glass viewing panels or fully clad panels
- Designed to fit any application including low headroom areas
- Heavy duty weather strip seals out rain & wind
- All doors come with wind braces to support the panels
- Powder-coated to meet your needs
